PROFILE

Software engineer with 2+ years of professional experience building production mobile and web applications, with strengths in Flutter, frontend development, maintainable architecture, and developer tooling.

EXPERIENCE

TTB spark — Frontend Engineer, Middle Level Aug 2025–Present

- Develop features for an internal enterprise application used by 10,000+ employees across bank branches using Flutter, Kotlin, Clean Architecture and Bloc. Contribute to an admin panel using React and Next.js.
- Apply Clean Architecture and structure unit tests to support maintainable, reliable development; build developer tools including Jenkins/Sonar pipelines, Melos commands and Context Builder.
- Contributed to complex Android plugin integrations for face recognition and passport scanning.

Hugeman Consultants — Frontend Innovative Engineer May 2024–Aug 2025

- Developed the STA Friends application and back-office system with Flutter, GetX, and Clean Architecture.
- Led codebase refactoring toward a more maintainable architecture; created automation for repetitive development tasks, including data models, UI, and tests.

SIMS Property — Freelance Developer Aug 2023–May 2024

- Built a property consulting web application using Flutter, Riverpod, Flutter Hooks, and Firebase.

Dr. Dish — Lead Programmer / Full-Stack Developer (Part-time) Feb 2022–Oct 2023

- Built and published a Flutter/Firebase food-ordering app; integrated external services and analyzed customer behavior with Firebase Analytics.

SCB Tech X — Frontend Software Engineer Intern Jun–Jul 2023

- Contributed to the SCB Easy app using Flutter and Bloc; wrote unit and integration tests.

PROJECTS

Caret Type — React, TypeScript & Firebase typing game with authentication, leaderboards, player progress, and multilingual content.
Play: https://caret-type.web.app

Virentis — Factorio mod introducing a planet with farming, cooking, trading, and production systems. Developed using Lua script.

EDUCATION

Chulalongkorn University — Computer Engineering 2020–2024

GPA 3.31, Second Class Honors
IBM Digital Badges: Basics of Quantum Information; Fundamentals of Quantum Algorithms

SKILLS

Flutter / Dart, Kotlin, React, Next.js, JavaScript, TypeScript, Python, Firebase, Lua, Git, Jenkins, Godot, Unity

Languages: Thai (native); English (TOEIC 920/990)
